

ANALYSIS
ON
GLOBAL TERRORISM
USING
EXCEL DASHBOARD

What is Global Terrorism?

- ❖ The threatened or actual use of illegal force and violence by a non-state actor to attain a political, economic, religious, or social goal through fear, coercion, or intimidation. - [University of Maryland](#)
- ❖ Global Terrorism: - Violent, criminal acts committed by individuals and/or groups who are inspired by, or associated with, designated foreign terrorist organizations or nations (state-sponsored). – [FBI](#)
- ❖ Domestic terrorism: Violent, criminal acts committed by individuals and/or groups to further ideological goals stemming from domestic influences, such as those of a political, religious, social, racial, or environmental nature. -[FBI](#)
- ❖ Terrorism, in its broadest sense, is the use of violence and fear to achieve an ideological aim. The term is used in this regard primarily to refer to intentional violence during peacetime or in the context of war against non-combatants (mostly civilians and neutral military personnel). The terms "terrorist" and "terrorism" originated during the French Revolution of the late 18th century but became widely used internationally and gained worldwide attention in the 1970s during the Northern Ireland conflict, the Basque conflict, and the Israeli–Palestinian conflict. The increased use of suicide attacks from the 1980s onwards was typified by the 2001 September 11 attacks in the United States. –[Wikipedia](#)

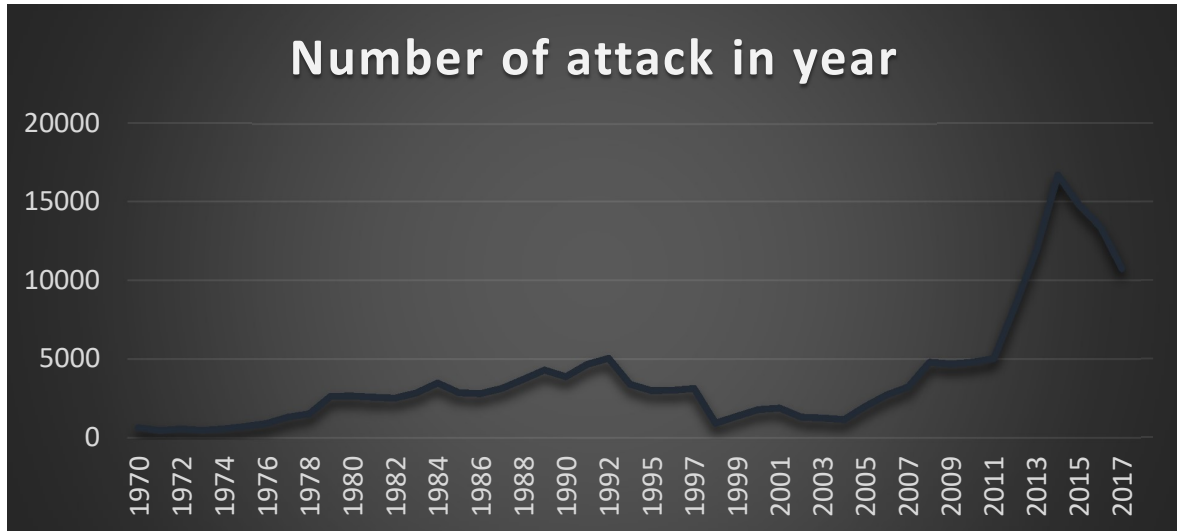

PROBLEM STATEMENTS:

- What are the total number of attack in each/all years?
- Which country has been hit the most by terrorist attacks?
- What type attack has been done by a terrorists?
- What are the total number of attack in region?
- Target by terrorist.
- Which group has been attack the most?

PROBLEM STATEMENT 1

what are the total number of attack in each/all years?
